

Production Accountant

Cardinal Energy has a full time opportunity for a Production Accountant, working on oil weighted Alberta and Saskatchewan properties, reporting to the Supervisor, Production Revenue Accounting. The successful candidate would have experience in the following and be able to perform their duties individually and in a team environment.

Key responsibilities:

- Responsible for accurate and timely production and revenue reporting for operated and non-operated properties in Alberta and Saskatchewan
- Crown, Freehold and GORR understanding and reporting
- Familiarization with units considered an asset
- Monthly reconciliations to marketing statements and field data system
- Review and analysis of properties on an ongoing basis
- Monthly A/R review and reconciliations for assigned properties
- Liaise and handle internal queries with Operations, Land, JV, Marketing and Field staff
- Responding to EPAP, external partner and audit related queries

Preferred skills:

- Minimum seven years' experience in a production accounting role
- Excellent communication skills and strong work ethic
- Strong analytical skills and solid understanding of financial entries
- Good organizational and time management skills are required
- Experience with Petronet considered an asset
- Post-secondary education is required
- CAPP certification is preferred
